

Replace Elements with Greatest Element on Right Side

```
class Solution {  
    public int[] replaceElements(int[] arr) {  
        int n = arr.length;  
        int greatest = -1;  
        for (int i = n - 1; i >= 0; i--) {  
            int current = arr[i];  
            arr[i] = greatest;  
            greatest = Math.max(greatest, current);  
        }  
  
        return arr;  
    }  
}
```
